

Flying with the Champions 2015

Against our plan to stop this event for at least one season, we are now highly motivated to continue. The enthusiasm of the participants last year convinced us!

Learn even more intensive from the world's best competition-pilots, this time two weeks in Bitterwasser and even three weeks in Kiripotib!

Who: The coaches are not fixed yet, but we have confirmations from: Janusz Centka, Steve Jones, Stefano Ghiorzo, Markus Frank, Brad Edwards, Holger Karow, Pete Harvey, Reinhard Schramme, Arndt Hovestadt, Holger Back, Andy Lutz and Wolfgang Janowitsch.

All of them former European- or World-Champions!

Where: Kiripotib, Namibia, about 150 km southeast of Windhoek

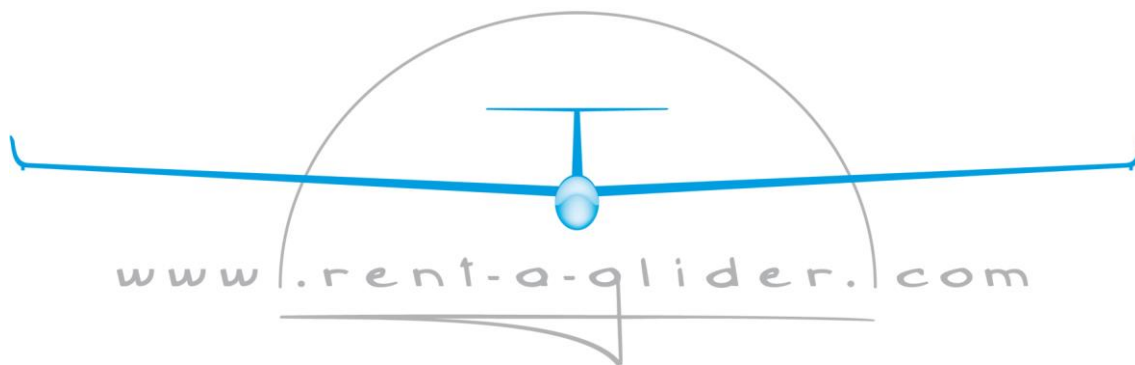

When: 7-day-courses each:

31. October - 06. November 2015
07. November - 13. November 2015
14. November - 20. November 2015

Where: Bitterwasser, Namibia, about 200 km southeast of Windhoek

When: 7-day-courses each:

01. November - 07. November 2015
08. November - 14. November 2015

How: In double-seaters a direct transfer of knowledge is possible. With his feedback the coach supports the development of the trainee's physical and mental skills. The structured training ensures defined goals. We offer the tools for further individual development after the seminar.

Planned are 6 flying days, one reserve day.

Language used: English, individually also German.

The idea:

Nowadays most glider pilots are not prepared for the long path to gain all the necessary experience to become a champion on their own. Modern double-seaters with easy handling can help us to find a shortcut. With its stable weather pattern

Namibia offers the ideal conditions for training all thermal soaring-skills. Our qualified personnel is ready to help you. 8 champions will be coaching you, in the morning with preparing tasks and goals for the day, in the cockpit with immediate feedback, and after flight with a detailed debriefing.

The persons:

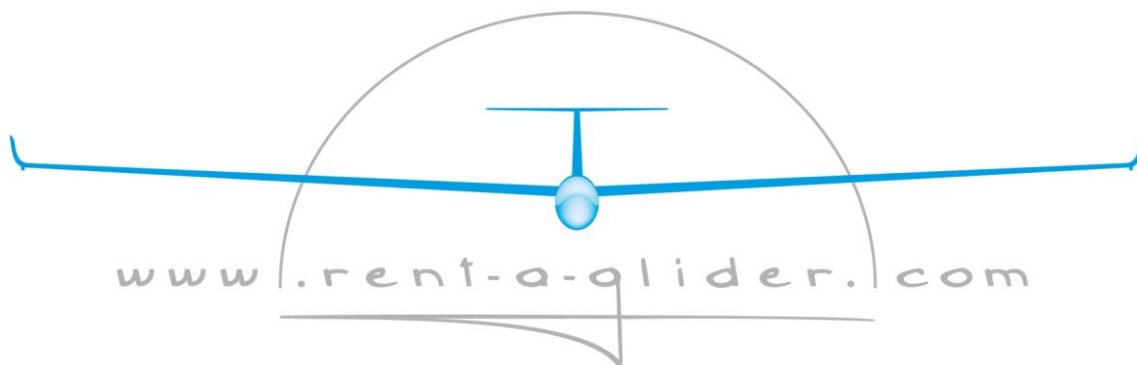

Organisation:

Ludwig Starkl, Wolfgang Janowitsch,

Supported by

In Kiripotib: Bernd Dolba

In Bitterwasser: Dieter Schwenk

Coaches: confirmed until now:

Janusz Centka, Steve Jones, Stefano Ghiorzo, Markus Frank, Brad Edwards, Holger Karow, Pete Harvey, Reinhard Schramme, Arndt Hovestadt, Holger Back, Andy Lutz, ...

Our gliders:

In Kiripotib we fly with Arcus M, Arcus E und ASH 25.

In Bitterwasser we fly with EB 28, Arcus M and the new ASG 32 from Schleicher.

They are in perfect condition, equipped with the best instruments. Waypoints and airspace are up to date in the gliding-computers.

That's what it looks like in practise:

In the beginning we are forming teams for the first half of the course. We try to respect all wishes of the trainee concerning coach and type of glider. After the weather-briefing the teams set their goals for the day. These can be quite different, depending on previous (Namibia-) experience. In the following days the flights will be analysed by each crew in the evening. Next morning a common review in the group will be made before the weather-briefing.

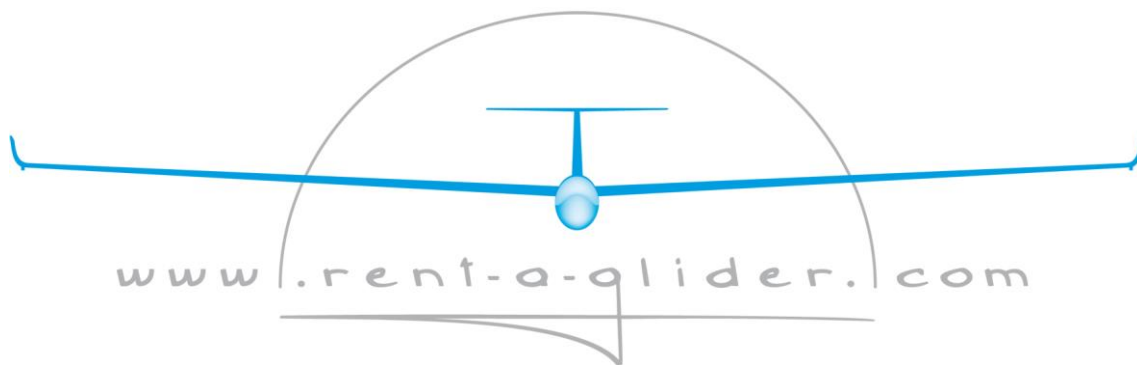

Based on the experience and cognition each team determines an individual task for the day. Only for the last day of each training period (3 days with the same coach) we will set a common competition-task with regatta-start, like in a Grand Prix.

Experience shows extraordinary progress with these methods. "Bad habits" created in years of lonely single-seater-flying, can be detected and corrected easily. This doesn't only concern manual flying (scanning, control-inputs...), but also the mental state (decision making, negative beliefs, risk management...).

To get the chance to learn from more than one expert, the pairings are changed in the middle of the course.

Apart from the immediate progress, you will get an idea about your strong and weaker points. Therefore you will have a tool for further individual training.

If you wish to implement the lessons learned right after the seminar, you should book the required glider early!

We are happy to support you in any way in preparing this trip. If you wish, we organize airline-tickets, car-rental or possible other activities for you or your company, to make it an unforgettable event. We'd like to point out that due to the limited number of rooms in Kiripotib we cannot meet all personal requests concerning accommodation. Usually you will have to share a double-room.

Price:

Entry fee: € 6.500,-

This includes all the costs for:

Glider (incl. oxygen and fuel), individual coaching by one of the Champions, navigation- and seminar documents, membership fee, all support needed for flight operations (briefing, ground handling, landing fee...), WLAN, transfer from and to Windhoek Airport, 8 days accommodation in a double-room, full board including common sundowner, afternoon tea/coffee and cake, VAT and tourist tax.

Not included are drinks & personal expenses and, if applicable, costs for accompanying persons.

This event is organized by
Rent-a-Glider GesmbH

We are looking forward to your enquiry!
